ABC-IO v5.0.0 — Owner Reference

redot1 Cloud Operating System
Generated: 2026-06-11 22:01 UTC

1. Release Summary

ABC-IO v5.0.0 (codename **redot1**) is the fully-deployed public cloud operating system. This release consolidates the public portal, owner dashboard, mobile gateway, beacon PWA, AI services, and autonomous orchestration into a single managed stack running on `162.254.32.142`.

Primary domain: `https://abc-io.com`
VPS host: `redot1 / 162.254.32.142`
Tag: `v5.0.0` in `abc-io-enterprise/redot2`

2. Live Endpoints

Service	URL	Purpose
Public Portal	<code>https://abc-io.com/</code>	Marketing, pricing, signup, docs
Customer Dashboard	<code>https://abc-io.com/dashboard.html</code>	Subscriptions, invoices, API keys, usage

Beacon PWA	https://abc-io.com/beacon/	Anonymous, privacy-first safety beacon
Mobile Gateway	http://162.254.32.142:5050	Cellular/autonomous backup gateway
Owner Dashboard	http://162.254.32.142:8500	Privileged owner operations, APK download
Operator Station	http://162.254.32.142:8080	Operational health/status dashboard
Gateway Health	https://abc-io.com/api/v1/system/health	Public health check
Prometheus	http://162.254.32.142:9091	Metrics
Grafana	http://162.254.32.142:14000	Visualization
Jaeger	http://162.254.32.142:16686	Distributed tracing

3. Public Pricing Tiers

Tier	Monthly	Annual	Rate Limit	Best For
Free	\$0	\$0	30 req/min	Experimentation, beacon
Basic	\$9	\$90	60 req/min	Personal projects
Standard	\$19	\$190	120 req/min	Freelancers
Pro	\$29	\$290	300 req/min	Professionals
Business	\$49	\$490	600 req/min	Small business
Team	\$99	\$990	1,200 req/min	Growing teams
Corporate	\$199	\$1,990	2,000 req/min	Departments
Enterprise	\$299	\$2,990	3,000 req/min	Large orgs

Agency	\$499	\$4,990	5,000 req/min	Multi-tenant agencies
Global	\$999	\$9,990	10,000 req/min	Worldwide scale

4. Signup & Upgrade Flow

1. User selects a tier on `/pricing.html`.
2. Clicking a CTA navigates to `/signup.html?tier=<tier>`.
3. Registration stores the requested tier on the account.
4. Free accounts go directly to the dashboard.
5. Paid accounts call `POST /api/v1/billing/checkout` (accepts `tier` or `priceId`) and are redirected to Stripe Checkout.
6. Existing subscribers can click **Upgrade Plan** in the dashboard to change tiers.

5. Beacon Privacy Policy

The Beacon PWA is intentionally anonymous and privacy-first:

No account or PII is collected.

Location is accessed **only** when the user clicks *"What's Around Me?"*.

Beacons expire after 24 hours.

Users may emit emergency/SOS beacons without creating an account.

6. Owner-Only Operations

The following capabilities are gated behind the authenticated Owner Dashboard and are intentionally absent from public pages:

- APK download (`/download/apk`)
- Docker service lifecycle control (restart, pull, update)
- User management and audit log review
- Maintenance mode toggle
- Backup status and cellular failover activation

7. AI Worker Topology

Node	IP	Role
redot1	162.254.32.142	Full-stack gateway + primary AI
ai1	192.227.212.235	Secondary AI worker
ai2	192.227.212.237	Secondary AI worker

The mobile gateway monitors upstream nodes and can activate cellular/autonomous failover if the primary gateway fails.

8. Deployment & Recovery

- Primary deploy script: `scripts/deploy-staged-redot1.py`
- Cluster deploy script: `scripts/deploy-vps-cluster.sh`
- Emergency recovery: `scripts/emergency-recovery.sh`
- Health check: `scripts/health-check.sh`
- Auto-heal: `scripts/auto-heal.sh`

9. Critical Security Notes

Secret rotation required. If any `.env` values were exposed, rotate immediately:

All `OWNER_*` keys and tokens

`JWT_SECRET`

`POSTGRES_PASSWORD`

Stripe and PayPal credentials

SMTP credentials

Mobile and public signing keys

After rotation, run `scripts/set-github-secrets.sh` and redeploy.

10. Deliverables

- Source archive: `redot2-v5.final.zip`

- Full backup: `redot2-v5.0.0-final-backup.zip`
- Owner reference: `ABC-IO_v5.0.0_Owner_Reference.pdf` (this document)

Before shutting down this workstation, copy all deliverables to encrypted USB/cloud storage and rotate all exposed secrets.
